

Pressure Test Kits

# PRESSURE TEST KITS

Compact, lightweight, and easy to handle, designed for testing hydraulic and pneumatic circuits during maintenance of tractors, cranes, agricultural and mining equipment, offshore applications, etc. Features an internal aluminum tray with a magnetic base and a handle, allowing secure attachment to any metallic surface.

## Technical Specifications

Available with 1 to 8 pressure gauges

Capillary hoses according to required length

May include different pressure test points

Special adapters to suit any type of equipment

Integrated selector valve (optional)

Dual scale: Pressure in bar / PSI

Warranty: 12 months against manufacturing defects

National technology

Technical support and spare parts available in Brazil

Manufactured in Brazil: GEPEF

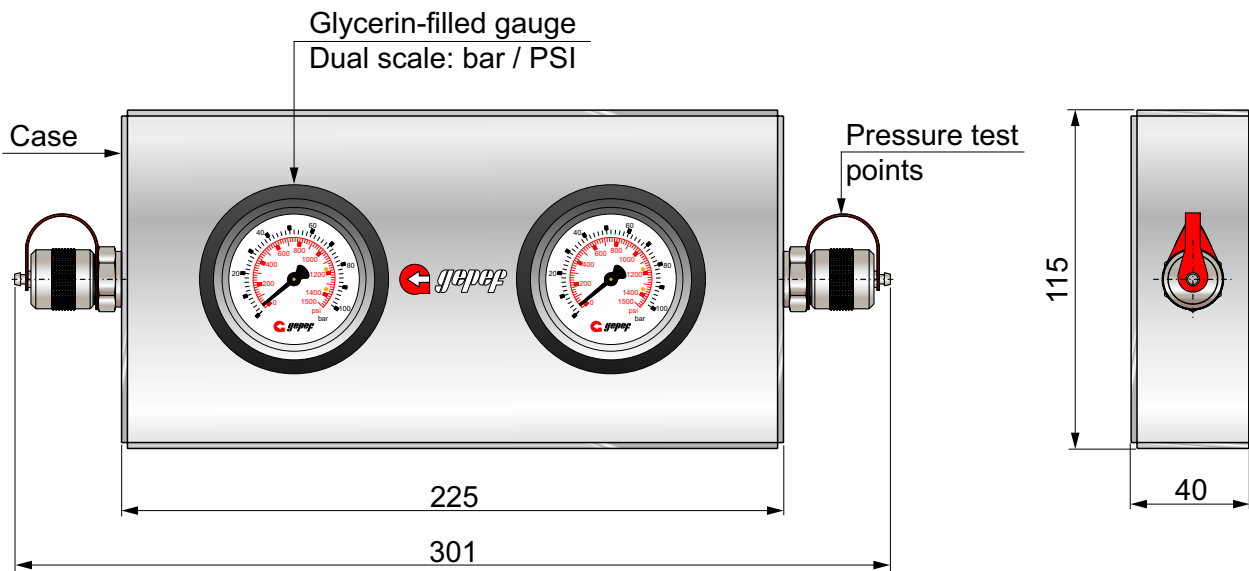

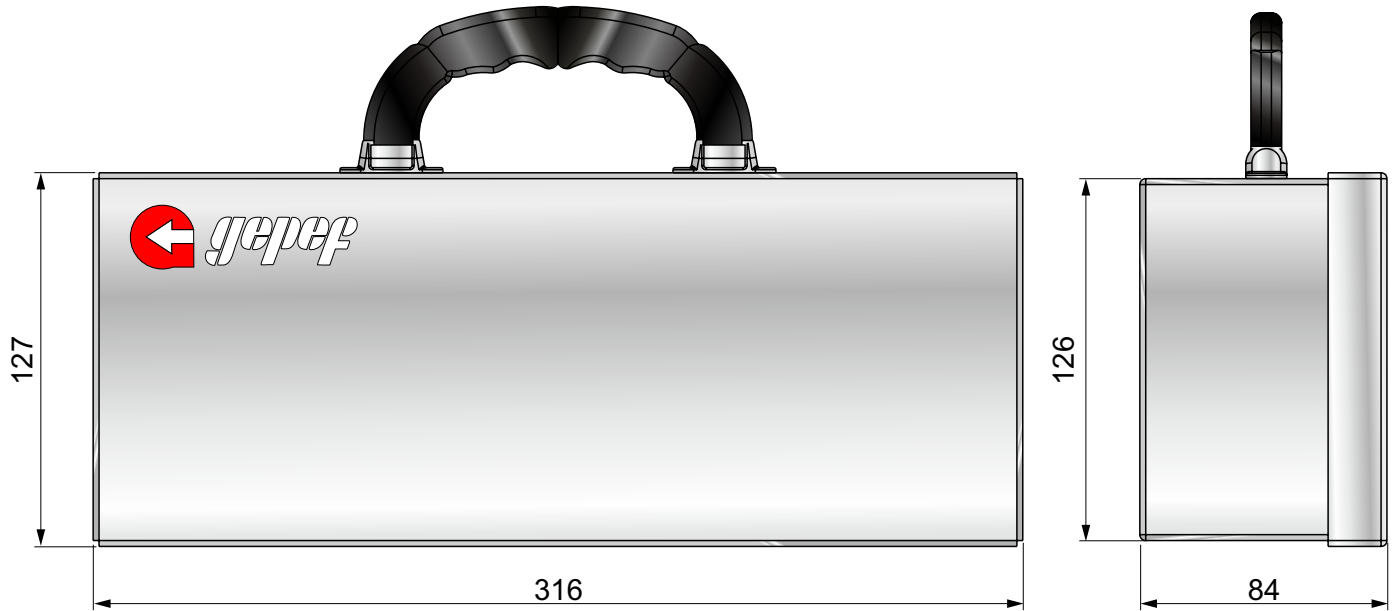

## Optional Items (upon request)

Synthetic fabric shoulder bag

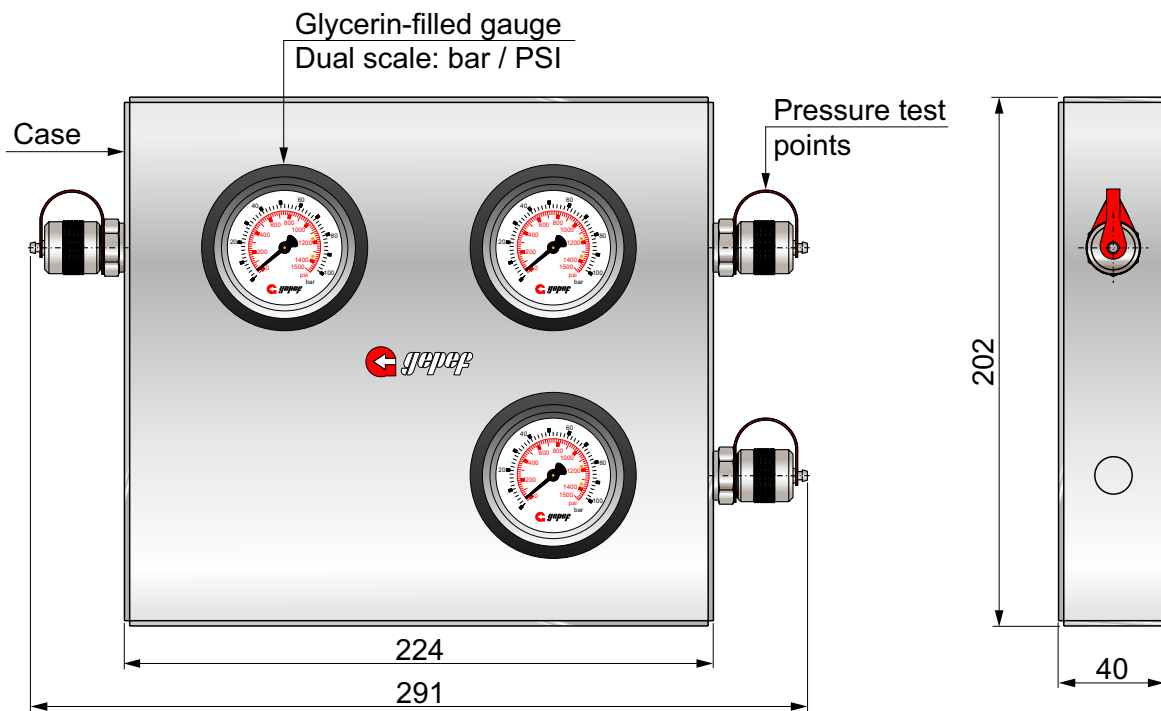

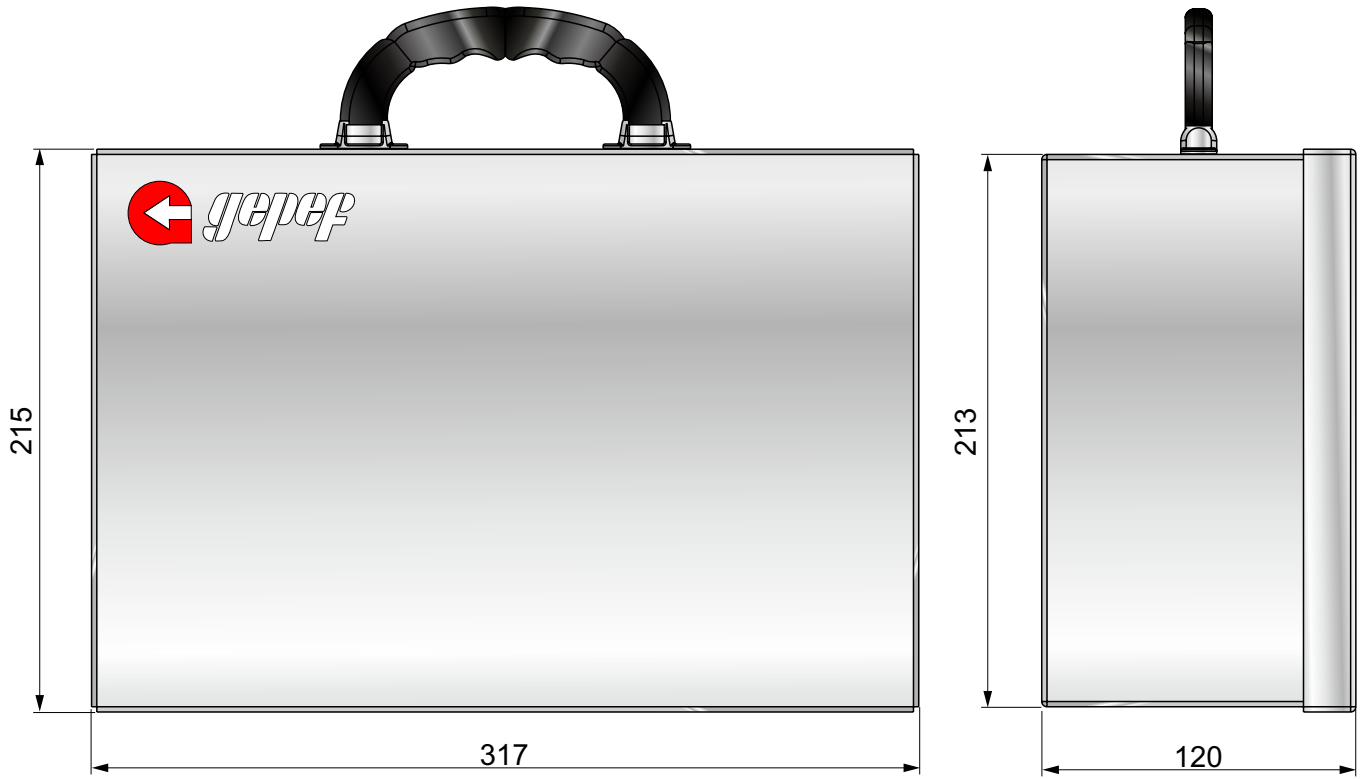

Capillary hoses

Pressure test points with alternative thread types

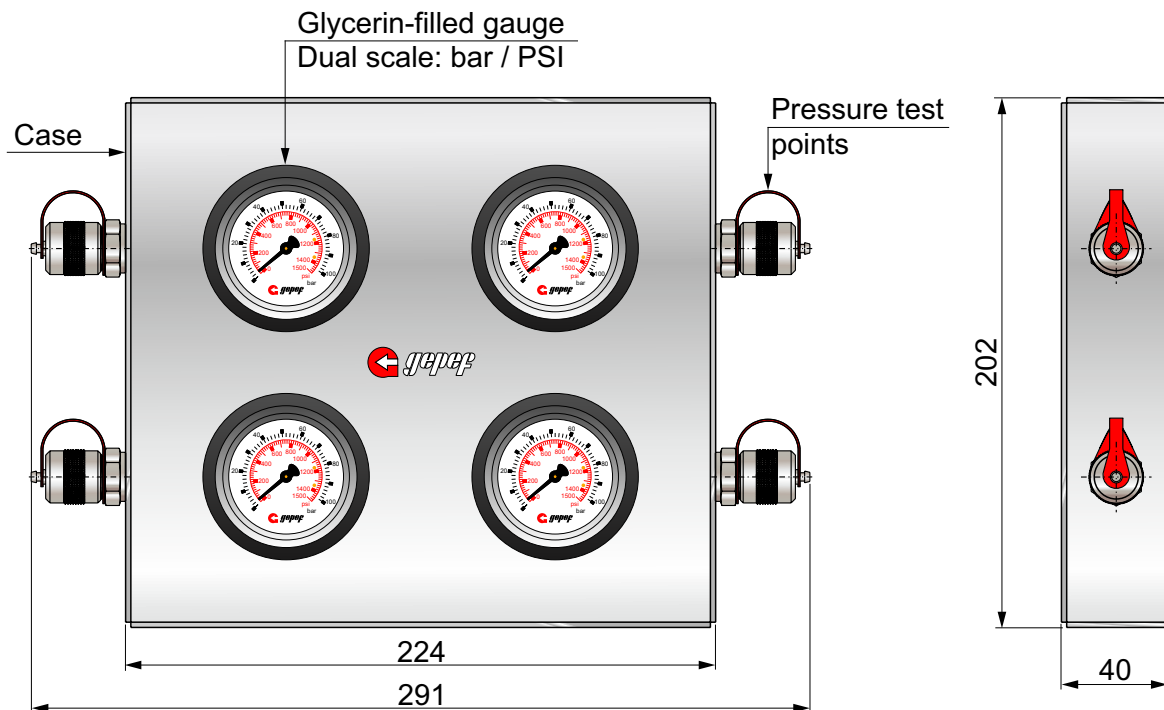

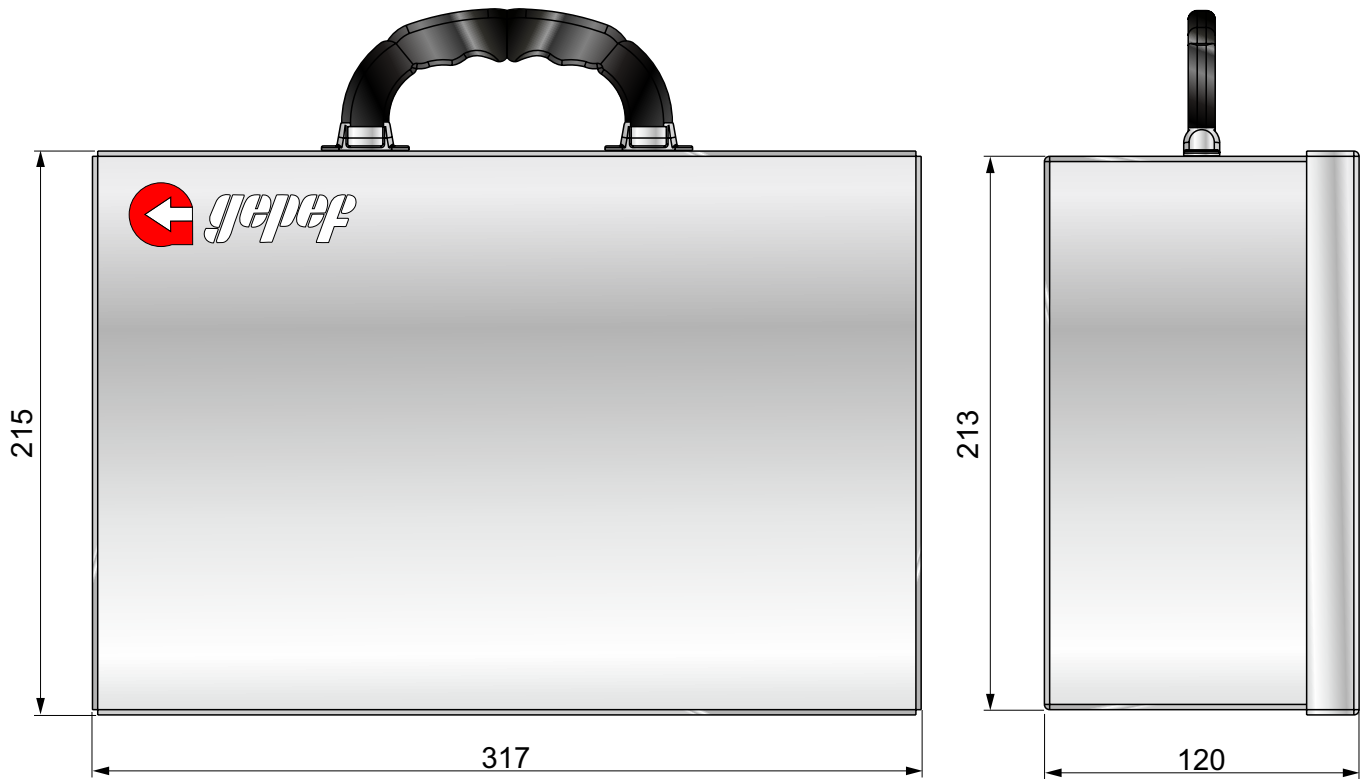

Carrying case with two GEPEF pressure gauges or vacuum gauges, scale selectable by the customer. Hoses, pressure test points, quick couplings, and accessories are supplied according to each customer's specific requirements.

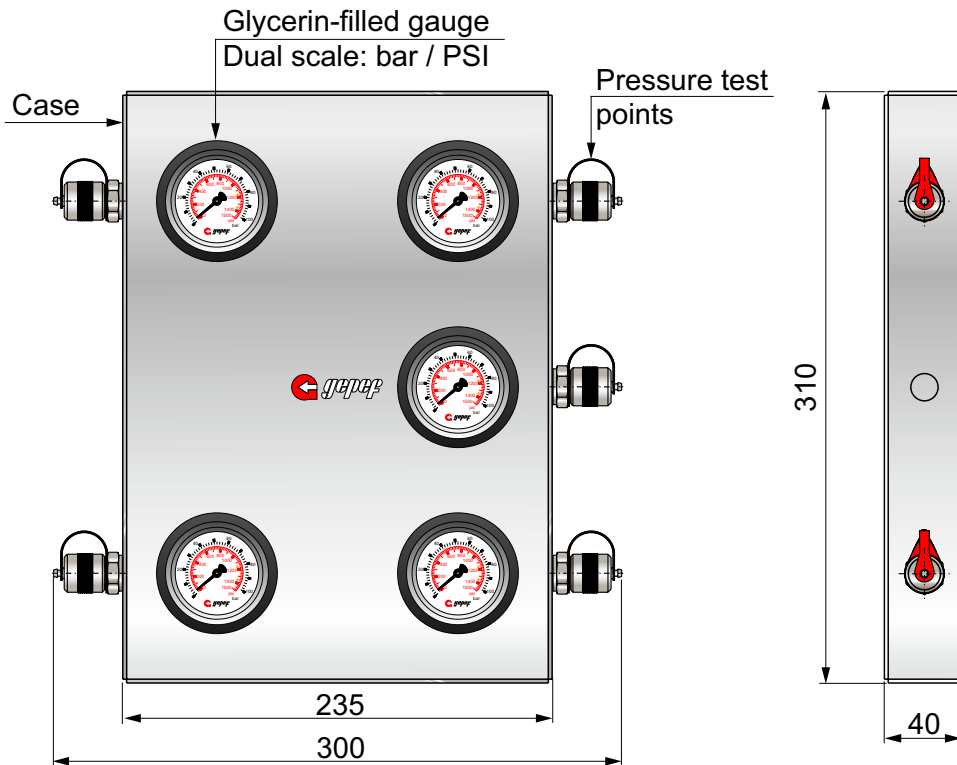

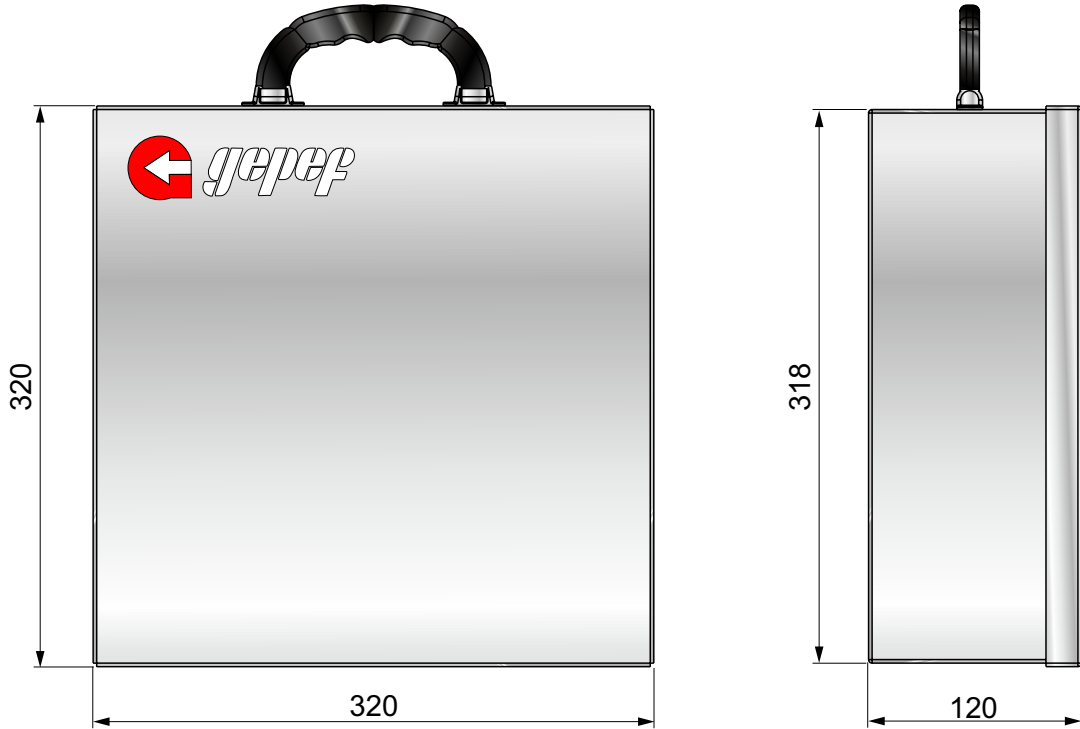

Carrying case with three GEPEF pressure gauges or vacuum gauges, scale selectable by the customer. Hoses, pressure test points, quick couplings, and accessories are supplied according to each customer's specific requirements.

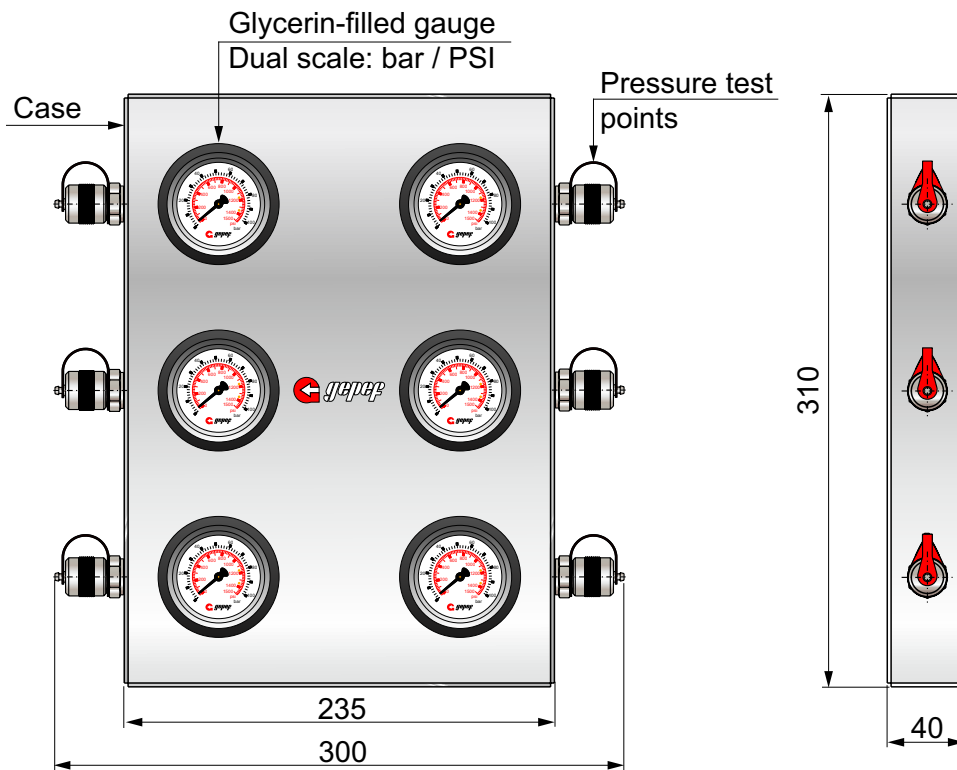

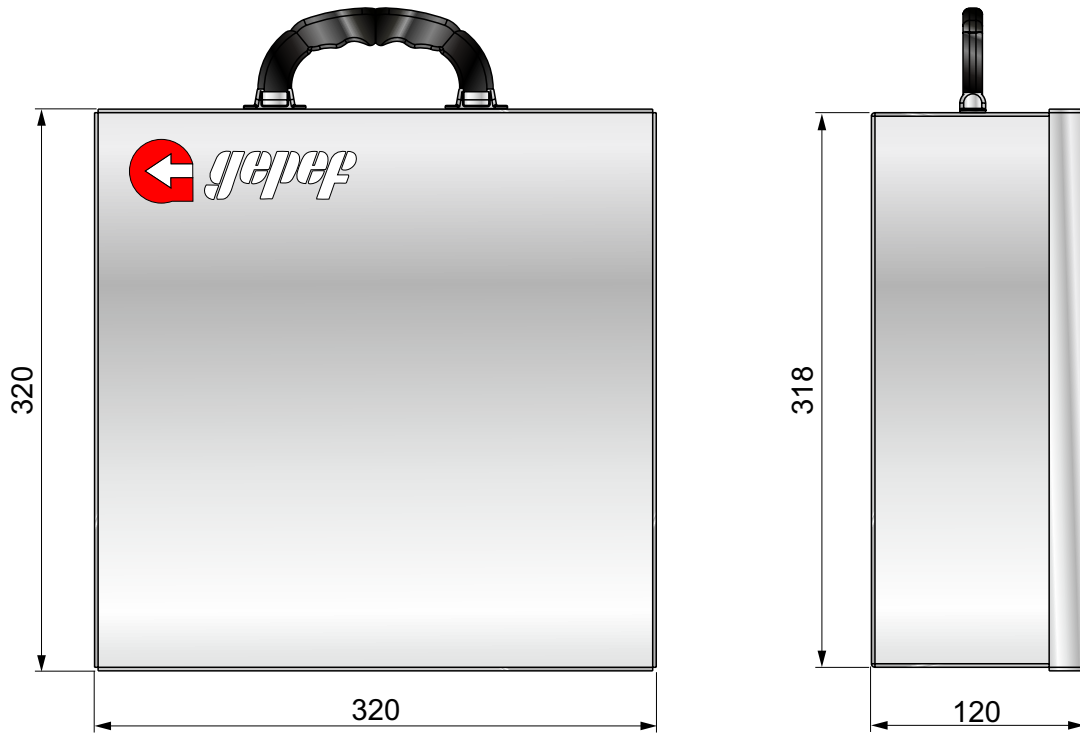

Carrying case with four GEPEF pressure gauges or vacuum gauges, scale selectable by the customer. Hoses, pressure test points, quick couplings, and accessories are supplied according to each customer's specific requirements.

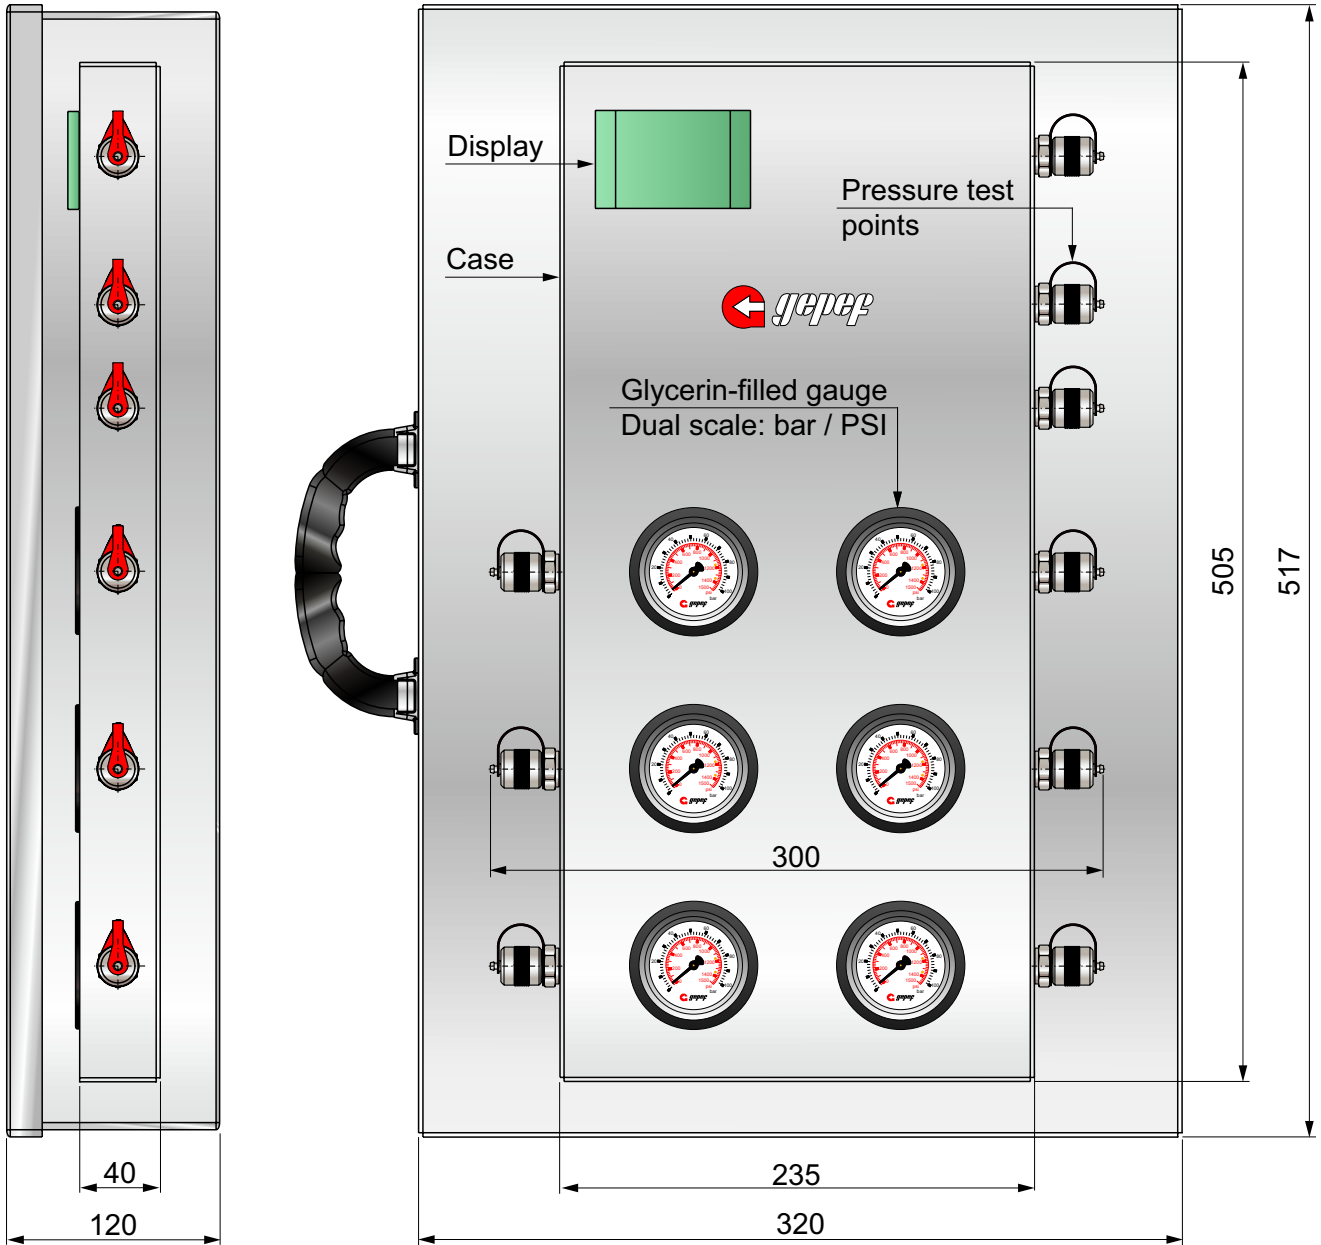

Carrying case with five GEPEF pressure gauges or vacuum gauges, scale selectable by the customer. Hoses, pressure test points, quick couplings, and accessories are supplied according to each customer's specific requirements.

Carrying case with six GEPEF pressure gauges or vacuum gauges, scale selectable by the customer. Hoses, pressure test points, quick couplings, and accessories are supplied according to each customer's specific requirements.

Carrying case with six GEPEF pressure gauges or vacuum gauges and two digital pressure gauges.

**Technical Specifications**

Available with 2 digital pressure gauges

Measurement hold / freeze on display

Backlit display for low-light or night measurements

Capillary hoses customized to length

Integrated selector valve (optional)

Dual scale (Pressure: bar / PSI)

National technology

Manufactured in Brazil: GEPEF

Peak pressure recording

Differential pressure measurement between two channels (A-B)

Available with 6 analog pressure gauges

Multiple pressure test point options

Integrated selector valve (and/or)

Warranty: 12 months against manufacturing defects

Technical support and spare parts available in Brazil

Optional Items (upon request)
